Lifesize Icon 800 delivers the ultimate communication experience to auditoriums and other large meeting spaces

Designed to radically simplify video conferencing with its intuitive “heads up” UI, six-button remote and touchscreen Lifesize® Phone™ HD, the Lifesize 800 offers:

- Four Full HD video inputs
- Two Full HD video outputs
- Seven audio inputs
- Four audio outputs
- Two USB 3.0 data inputs
- Secure connectors for server racks

With the additional video inputs the Lifesize Icon 800 provides users incredible flexibility. Connect multiple video devices, such as PTZ cameras, laptops or DVRs, as well as audio devices, such as MP3 players, to the Lifesize Icon 800 and deliver an unprecedented immersive experience. And when paired to the Lifesize cloud-based service, there simply isn’t a more powerful, yet easy-to-use video conferencing solution in the world.

Simplified Input Selection

Users can easily choose the video input for both primary and secondary streams with the remote control or through the Lifesize Phone HD touchscreen display. Audio sources are automatically heard at each end when the user pushes play eliminating the need to call support when the audio source doesn’t match the video input.

FREE! Lifesize Link Adapter

Included with your purchase is the new Lifesize Link Adapter, which supports especially long cable runs between the Lifesize Icon 800 unit and a Lifesize Phone HD or Digital MicPod—up to 61 meters (200 feet). Now, Lifesize Phone HD can be positioned deeper in the auditorium.

Ideal for Systems Integrators

Systems integrators seeking a video conferencing solution that readily integrates with existing custom third-party solutions need look no further than the Lifesize Icon 800. Its rack-mount design enables systems integrators to install the Lifesize Icon 800 into any industry-standard server, podium and other rack-mount space with ease. The internal power supply and the locking rear connectors ensure a simple and secure installation.
